

A little pumpkin. A big imagination.

ASHVOLT is a Halloween-inspired meme coin concept built around a lovable pumpkin character, his ghostly friend Ghostie, and a growing world of playful stories, music and community creativity. The aim is to build an entertaining, welcoming project with clear communication and room for imaginative future content.

What we have already created

- Established the ASHVOLT and Ghostie character concept and a recognizable Halloween visual identity.
- Produced the ASHVOLT Halloween Adventure musical film as an early creative showcase.
- Prepared a Pump.fun profile for project updates and future launch visibility.

What this roadmap is

This roadmap describes intended development stages rather than fixed promises or guaranteed deadlines. Some initiatives depend on community participation, technical feasibility, available resources and market conditions. Plans may be updated openly as the project evolves.

Our guiding principles

- Creativity first: character-driven storytelling, short films, music and memorable seasonal experiences.
- Community involvement: invite suggestions, fan creations and constructive feedback.
- Transparency: clearly distinguish completed work from plans and possibilities.
- Responsible participation: avoid claims of guaranteed profits, prices or investment outcomes.

THE ROADMAP

From the first spark to a growing universe

PHASE 01 | THE SPARK — Creative Foundation

- Introduce ASHVOLT: a cheerful pumpkin with a playful personality and a distinctive visual style.
- Introduce Ghostie as a friendly companion in the ASHVOLT world.
- Create the first musical Halloween adventure and establish the project’s tone.
- Prepare consistent profile visuals and clear descriptions for public channels.
- Share the first content with the community and collect feedback.

Status: Core characters and the first Halloween film created; communication materials remain subject to final review.

PHASE 02 | THE LAUNCH — Going Live

- Complete a final review of the token name, ticker, artwork, description and linked social accounts.
- Confirm the correct wallet, network, available SOL and actual transaction costs before submission.
- Check the current Pump.fun creator-fee/reward setup and receiving-wallet options before launch.
- Launch only after confirming the platform details and the risks involved.
- Publish the verified token address through official channels once it exists.

Status: Planned. No launch date or on-chain token address is asserted in this document.

PHASE 03 | FIRST COMMUNITY MOMENTUM

- Share the Halloween Adventure film and introduce the characters to new audiences.
- Publish short clips, character moments, illustrations and behind-the-scenes updates.
- Encourage respectful conversation and voluntary community participation.
- Listen to suggestions for future ASHVOLT stories and creative themes.
- Review early communication results without promising market performance.

GROWING THE ASHVOLT WORLD

Creative ambitions beyond launch day

PHASE 04 | STORIES, MUSIC & SEASONAL MAGIC

- Explore additional ASHVOLT and Ghostie mini-adventures, subject to creative capacity.
- Develop new music-led moments and playful animations when production resources allow.
- Experiment with recurring characters, new settings and holiday-themed episodes.
- Invite the community to vote on selected creative ideas when practical.
- Keep character design and storytelling consistent across future content.

PHASE 05 | COMMUNITY PARTICIPATION

- Create opportunities for fan art, memes, short stories and community challenges.
- Highlight original community contributions with permission and attribution.
- Offer occasional polls about story ideas, themes and upcoming content.
- Encourage a positive environment with clear moderation and anti-scam reminders.
- Publish periodic updates on what has been finished, delayed or changed.

PHASE 06 | SUSTAINABLE DEVELOPMENT

- Evaluate which creative activities are realistic given the project’s available time and funds.
- Consider optional collaborations only after assessing quality, cost and community fit.
- Use any creator rewards only if actually received, and explain their intended use transparently.
- Review marketing experiments based on audience engagement rather than price targets.
- Keep longer-term ideas flexible instead of announcing unconfirmed features as commitments.

Possible future ideas — not confirmed commitments

A wider animated ASHVOLT universe, themed music releases, seasonal specials, creator collaborations and community-led creative events may be explored. None is guaranteed or scheduled at this stage.

LAUNCH READINESS & TRUST

A practical checklist for the next chapter

Before launch

- Verify token name and ticker: ASHVOLT / AVLT.
- Review the final image, description and project links.
- Confirm the connected wallet and current on-chain fees.
- Check creator rewards, recipient wallet and applicable platform rules.
- Confirm official channels and prepare a clear contract-address announcement.
- Publish risk-aware messaging without guarantees or pressure to buy.

After launch

- Share the actual verified contract address; warn against impersonators.
- Explain which roadmap milestones are completed versus still planned.
- Post updates at a manageable pace and welcome constructive feedback.
- Track creative deliverables separately from token market activity.
- Revisit the roadmap if funding, production capacity or community priorities change.

Important risk notice

ASHVOLT ($AVLT) is presented as a speculative meme coin project and a creative community initiative, not as an investment product with promised returns. Crypto tokens can be highly volatile and may lose all their value. There are no guarantees of liquidity, market price, listing, profitability, project growth or completion of future milestones. Participation should be voluntary and based on independent research and personal risk tolerance.

Follow the adventure

Pump.fun creator profile: pump.fun/u/MaxHighlyKraken

The next chapter will be written through creativity, consistency and the people who choose to join the adventure.
